Learning Innovative Programme on

“Learn - A Day - A Plant”

Organized by
Department of Botany

The Department of Botany, B.Sc (CBZ) I, II & III years students are involved in the Innovative Programme named “Learn A Day - A Plant”. This programme has been Implemented since 2014, under the guidance of, Ms. Ch. Radhika, Head, Dept. of Botany & other faculty members.

This programme has proved useful to the students. Studying a plant a day, is a method which encourages & motivates students to observe and understand the vegetation and the plant kingdom around them. It also enables them to understand the need to conserve these species. Every student collects a medicinal plant and gets it certified by the taxonomist in the Department. Students learn about the family habitat, the medicinal value and economic importance of the plant. Then, the information is written in the herbarium.

This Herbarium is put up on the notice board, each student reads the herbarium & writes notes on the plant in the field note book. In this way the programme named “Learn A Day - A Plant” is useful to the students. This programme gives information about the medicinal values of various plants in their daily life.
