

WEBINAR PRESENTATION ON ROBOTICS PROCESS AUTOMATION

Student listening to the lecture

Report

An Webinar presentation was conducted on Robotics Process Automation on 18th September, 2019 for all final year students of M.Sc.(CS) & M.C.A.. Sri. T. Anjireddy is the Resource Person. He is a Solution Architect in RPA & Cognitive Miracle Software Systems Inc., at US.

He explained about the Process Automation and Efficiency like Business Process Management i.e Briding the gap between Humans and Systems for Streaming processes,

Robotic process management i.e Automating back-office actions and systems which lack proper integration, Chat Bot based Process Automation i.e Improving user experiences involved in the process life cycle.

He explained how he used Robotic Process Automation(RPA) in his project. RPA allows organizations to automate task just like a human being was doing them across application and systems.
