Awareness Programme on
“Importance of Stem Cells”

Organized by: *NSS*

20th June, 2018

Stem Cells and the Benefits

The Principal of KBN College Dr. Narayana Rao spoke on the importance and advantages of stem cells in the awareness programme organised by the NSS units, KOSA in collaboration with Dhatri foundation on 20th June, 2018 in the seminar hall.

The Principal inaugurated the program and stated that stem cells can effectively cure fatal diseases such as cancer. It is possible to give a new lease of life to Thalassemia patients through stem cells. Vivekananda Youth Association President Mr. V. Lakshmi Prasanna stated that the DNA of stem cell donors can cure the disease. The Dhatri foundation gives to test the DNA of 10 lakh people in the country and maintain the information to help cure fatal diseases. In this regard they created awareness among youth and motivate them to donate stem cells voluntarily. This program was convened by NSS Units. Programme Officers Mr. V. Seshagiri Rao, J. Panduranga Rao and Ms. Sagarika participated.
