

Webinar on Importance of Natural Products and their contribution to health and Society

Department of PG chemistry organized a webinar on Importance of Natural products and their contribution to Health and Society by Dr. K. Suresh Babu, Scientist, ICT, Hyderabad on 26th June, 2020 at 11.00 am to all MSc Organic and Analytical chemistry students.

In his webinar the following points are covered

1. Concept of Natural Products
2. Importance of Natural Products
3. Natural products and their contribution to Health and Society
4. Challenges for drugs in global health care

The screenshot shows a Google Meet interface during a webinar. The main content is a presentation slide with the following text:

Challenges for drugs in global health care

- Exploding population (6.85 bn now, 10.0 bn by 2035; a 40% increase)
- Massive pantropical deforestation
- Increasing fossil fuel use and global warming
- New deadly and untreatable global diseases (SARS, Avian flu, Swine Flu, HIV infections etc)
- Increasing drug resistance (MRSA, VRSA)

The slide includes images of Earth, a deforested landscape, and a sunset. The meeting interface shows a 'REC' indicator, the presenter 'Dr. sureshbabu katragadda', and a list of participants including ashok kumar, Bhagyasri sarkavarapu, ch srinivas, Chinna Krishnaiah, Dr. sureshbabu katragadda, Dr. sureshbabu katragadda (Pr...), gadde sirisha, and gopi boddu. Meeting controls like 'Turn on captions' and 'Meeting details' are visible at the bottom.
