10.50am to 11 am	-	Introduction about the chief Guest.
11am onwards	-	Session by M.Rajesh Babu, CEO, AVONOVA

About AVONOVA

Home automation or domotics is building automation for a home, called a smart home or smart house. A home automation system will control lighting, climate, entertainment systems, and appliances. It may also include home security such as access control and alarm systems.^[2] When connected with the Internet, home devices are an important constituent of the Internet of Things.

A home automation system typically connects controlled devices to a central hub or "gateway". The user interface for control of the system uses wall-mounted terminals, tablet or desktop computers, a mobile phone application, or a Web interface, that may also be accessible off-site through the Internet.

About the Resource Person.

He is an MBA graduate from ICFAI University. After his graduation he stepped into Home Automation Business which is one of the innovative thoughts using Internet of Things and Technology. In 2009, he started AVONOVA which basically deals with Home Automations and the name itself shows the innovative thought that if you spell it from first to last and vice-versa it resembles the same spelling. Now he has occupied a place among the big business tycoons in and around Andhra Pradesh.
