

# Webinar on 'Wireless High Speed Data Transmission in Network'

23<sup>rd</sup> January, 2021

## REPORT

Department of Computer Science & Applications, KBN College Vijayawada is having a webinar on wireless high speed data transmission in network' on 23<sup>rd</sup> January, 2021 at 2 PM. KBN College is having an MoU with Lincoln university College, Malaysia. The resource person of the webinar is Prof Dr. Bala Ganesh Duraisamy, Dean – Faculty of Information Technology, Lincoln University College. He has given enough talk on wireless networks and data transmission in wireless networks using Li-Fi (short for light fidelity). Li-Fi is wireless communication technology which utilizes light to transmit data and position between devices. The term was first introduced by Harald Haas during a 2011. In technical terms, Li-Fi is a light communication system that is capable of transmitting data at high speeds over the visible light, ultraviolet, and infrared spectrums. Resource person encouraged the students to focus on Li-Fi because it is the emerging technology.

Mr E. Vara Prasad, Principal KBN College and Dr K Naveen Kumar, Vice-Principal KBN College, Mr P Ravindra, Head Dept. of Computer Science & Applications and Department Staff participated in this webinar actively.
